Delivered Date: 03/28/2012 02:59 PM PST

Subject: RE: Flint Hills Refinery Final Site Characterization and Risk Assessment Reports

I think you could consider it at that point now. Our review is more for data gaps that will be addressed in field season of 2012.

Subject: RE: Flint Hills Refinery Final Site Characterization and Risk Assessment Reports

I guess when I hear that DEC with be conducting a "review", it makes me think that you will submit comments/edits to Flints Hills and the contents could potentially change. So finalized means no more changes and it is a public document.

Thanks Ann,

Any idea of when it will be finalized?

On another note, I spoke with HQ yesterday and they have plans to post the new SCDM values for sulfolane by the end of next week. I will let you know when they are up.

Subject: RE: Flint Hills Refinery Final Site Characterization and Risk Assessment Reports

Hi Loren-

FHR has submitted a final site characterization report. DEC has not finished review of it. I asked Flint Hills last week to send you a copy of the report so I expect you'll be receiving it any day now. You can also download it directly from our sharepoint site. IF you or your consultant need assistance with that, please let me know. I will have our sharepoint manager contact you.

Ann

Subject: Flint Hills Refinery Final Site Characterization and Risk Assessment Reports

Hi Ann

I wanted to check in and see if the Site Characterization and Risk Assessment report are final and if I'm able to get copies of them.

Thanks

Brandon Perkins
